

Minutes of the
Whately Historical Commission Meeting
May 15, 2017 at 5:00pm

Present: Alan McArdle, Donna Wiley, Darcy Tozier.

The minutes for the April 10, 2017 meeting were approved.

In regards to the solar arrays recently proposed off Christian Lane and Long Plain Rd., concern was expressed about the many holes needed for mounting purposes. The Historical Commission is unaware of any historical impact. Alan will send a letter expressing our concern for care as to the many holes are being drilled.

The Nolumbeka Project sent information to Alan about a conference of partnerships with tribes and historical commissions developing outreach programs.

Initial look at the Water District plans for combining systems raise no concerns for historical impact.

Alan has informed the commission of his need to step down as chair of the Historical Commission for health reasons.

Next proposed meeting for June 19, 2017.
