Mass Save Home Performance Pilot Program

Cozy Home Performance announces a Mass Save pilot program for eligible WMECO customers. This pilot will make available generous Mass Save incentives to customers wanting to improve the energy performance of their home using an integrated Home Performance approach. We have a limited number of projects to work with and the heating season is around the corner - contact us today for more information!

Program benefits:

No-cost home energy assessment

75% rebate for approved insulation measures (up to \$2,000)

Up to 8 hours of no-cost airsealing (aprox. \$500 value)

0% financing for qualified efficiency measures (up to \$15,000)

Qualifies for federal tax credit (\$1,500- ends Dec.31st)

Third-party quality assurance

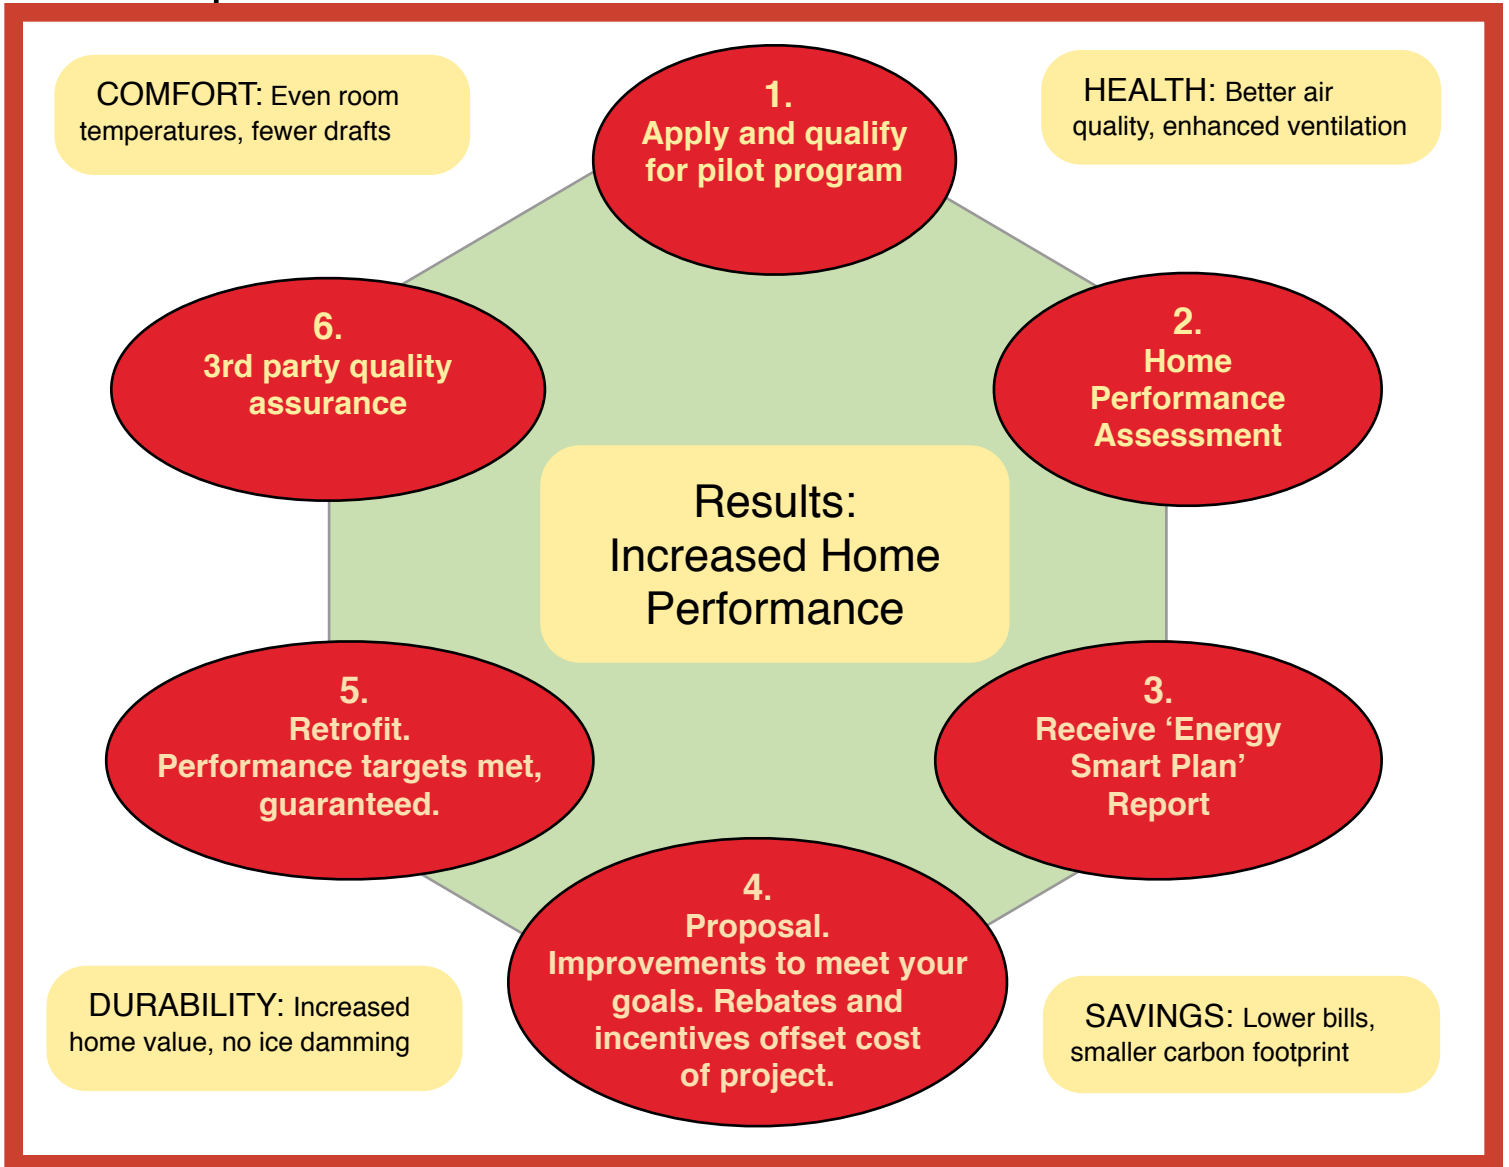

Simple process: One local company, few site visits, a personal relationship

Cozy Home Performance uses an integrated building science approach to assess and improve the performance of your home. Our services benefit occupant health and comfort, building durability, and energy efficiency. Working with Cozy Home, you can be assured that performance targets are met and your quality of life is improved.

Building Efficiency for an Energy Smart Future

How the process works:

Criteria for Applicants :

- * WMECO (Western MA Electric Co.) is electric provider.
- * Have not had Mass Save assessment in the last 12 months, or have not yet followed through on your recommendations.
- * Cozy Home Performance is seeking homeowners who are ready to invest in their home to achieve 30%+ energy savings and increased home performance*

*The Mass Save program is available to all eligible utility rate-payers regardless of energy savings goals
