2010 Whately Annual Town Report Dedication

Adelia Bardwell

Each year the Whately Annual Town Report is dedicated to an individual who has devoted him or herself to making the Town of Whately a community in which we can all be proud. Many men and women have been recognized over the years for their contributions to the Town of Whately. This year, the citizens of Whately dedicate the annual report to Adelia Bardwell who has served the town in many capacities over the years. It has been said, that if there is a project to be done, have Adelia on the committee.

Adelia Allis was born in Whately to Edward and Marion (Osgood) Allis. The Allis' have been a part of Whately since its incorporation in 1771. Adelia attended Whately schools and Deerfield High School where she started her civic involvement as class president. She attended the University of Massachusetts and earned her master's in education from Westfield State College. Adelia taught third grade in Greenfield for 39 years retiring in 1999.

Adelia married Fred Bardwell in 1963 and had two children, Keith and Robert. The 1992 Town Report was dedicated to Fred for his many years of service as a former Selectmen, Cemetery Commissioner and his continued role as a member of the Planning Board. Keith serves as the Town's Highway Superintendent/Tree Warden and Deputy Fire Chief. Robert has followed in her educational footsteps by serving as a guidance counselor at Monson High School and an adjunct professor at Westfield State College. It seems that a commitment to civic devotion and education runs in the Bardwell family.

Whately benefited from Adelia's civic mindedness very early. Adelia joined Whately Grange 414 when she was 14 and has served in various capacities including Master over her 58 year membership. For many years she organized the Grange sponsored annual Memorial Day activities. Adelia does not limit her activities to just the town of Whately as she also serves on various grange state committees and was a past master of the Connecticut Valley Pomona Grange.

Her teaching skills were put in place early as a Sunday School teacher, and a member of the choir at the Whately Congregational Church when she was just a teenager. She continues to sing in the choir to this day. Her devotion to the church has continued through out her life. Not only has Adelia served on committees and as an officer of her church, she has been active in both county and state church organizations. The West Whately Chapel restoration was another of Adelia's many projects and she still continues to schedule ongoing activities at the Chapel.

During Whately's 1971 Bicentennial, Adelia served as secretary of the Whately Bicentennial Committee helping to plan the many events that took place during the Bicentennial Celebration Year including hosting Julian Whately, a direct descendant of Thomas Whately for whom our town was named.

As President of the Whately Historical Society, Adelia is continuing the efforts of past presidents in obtaining oral histories from many residents of Whately. She is spearheading efforts to preserve these histories by digitalizing the records originally recorded on reel to reel, cassette or VCR tapes. The Historical Society receives many phone calls from people wishing to find out about Whately family connections and Adelia can be found at all hours at the Center School Historical Society researching these requests or meeting with people.

Town government has also benefited from Adelia's service. She served as a member of the School Committee for fifteen years from 1978 – 1993 and was on the committee when the new elementary school was built. For 38 years Adelia and Fred kept records, mowed lawn, raked leaves and generally maintained the three town cemeteries as a member of the Cemetery Commissioners. This was a role that she held until 2008.

Adelia's interests are varied and she has also served a six year stint on the Cultural Council which awards small grants to various cultural activities for the town. She continues to serve on the Municipal Building Committee which was created to determine the best use of our town buildings. The Municipal Building Committee is recommending consolidation of town offices into a renovated Town Hall.

Some might wonder how Adelia has been able to keep all of her civic obligations in order but those of us who know her, we recognize the ever present list organizing all the tasks that she wants to complete. Not only does she handle all the civic obligations, but she has a very busy private life caring for her family especially her grandchildren. Many times you will see her with one or more of the grandchildren in tow, completing the never ending tasks on her lists. Perhaps the next generation is being primed to continue the legacy of civic participation that Adelia has lived by all these years.

Adelia Bardwell's strong commitment to community will continue to benefit the town for years to come. She is a dedicated town volunteer and cares about the future of the Town of Whately. It is with deep respect and appreciation that this town report is dedicated to Adelia Bardwell.

On behalf of the townspeople of Whately,

Paul K. Newlin, Chairman
Board of Selectmen

Board or Committee:	Meeting Date:
Agricultural Commission	No set meeting date
Assessors	Tuesdays, 7:00-9:00 P.M., Town Hall

2010 Report of the Board of Selectmen

The Board of Selectmen had a very challenging year in 2010. As we have reported over the last couple of years, finances continue to be a major issue. The State continues to cut the amount of state aid that the town receives, costs continue to rise yet the residents still expect a certain level of services. The Finance Committee and Selectmen were forced to make some cuts in requested budgets for FY11, which in turn required a cut to some services. The Selectmen have tried to take advantage of every revenue source available to them. At the 2010 Annual Town Meeting the voters voted to adopt an increased rooms and meals tax on the recommendation of the Selectmen and Finance Committee.

In 2010 the Selectmen, Finance Committee and Capital Improvement Planning Committee recognized that there is no way that the town can afford to replace equipment and complete major projects with the present funding sources. So in order to gain another revenue stream, they proposed a Capital Stabilization Fund that would be funded by an override. This proposed fund passed town meeting unanimously but when presented for a ballot vote at the Annual Town Election failed to garner enough votes for passage. Because there were only 204 voters at the Town Election the Selectmen felt it was important to get a better percentage of the voters to answer this important question so they brought it back to the voters on the State Election ballot in November. Again it failed to pass and it was clear from this vote that the voters did not want to fund this account with an override. In order to purchase big-ticket items such as highway dump trucks, ambulances and fire trucks it is now apparent that we will have to bring each item to a debt exclusion vote and pay the borrowing costs.

Aside from Financial concerns the Selectmen dealt with other frustrating issues. We had high hopes that the Haydenville Road Bridge would be replaced by fall of 2010. The project was started but the construction company met with problems in creating a cofferdam. This required additional engineering that then delayed the project further. Although it is not a certainty, it is possible that the road will be closed entirely and traffic detoured to Conway Road while the bridge is completed. The Selectmen have asked for help from Representative Kulik, Senator Rosenberg and Congressman Olver to move this project along.

The Haydenville Road Bridge was not the only bridge problem that the board faced. In September the Selectmen were forced to close one of the bridges on Williamsburg Road. This bridge is under the 20' requirement necessary to be placed on the state bridge repair program but is over 10', which requires Mass DOT involvement in the engineering. This will increase the costs to replace the bridge. We have asked Mass DOT district 2 to consider placing not only the closed bridge but also the two other bridges on the bridge repair program. We are still waiting to hear an answer to our request.

Last year we had reported that we were looking forward to entering into an Energy Performance contract with Siemen's Building Technology. The investment grade audit was completed but the proposed project of almost \$300,000 for lighting and building envelope repairs was not cost neutral. The town would have had to come up with \$74,000 in order to proceed with the project, an amount the town does not have. The Selectmen chose not to continue to pursue an energy performance contract but work on simple and less costly improvements a little at a time using volunteers.

We also reported that we would be working on the building consolidation project that would involve major renovations to Town Hall. The Selectmen submitted a proposal to the Community Preservation Committee in December for \$87,000 for design costs, specifications and bidding documents for the renovation of the

building. After conversations with the CPC we decided to reduce the request to \$30,000 for just design costs to make sure that the project design is the right one for the Town. We hope that the CPC looks favorably on our application and that it will be presented to the town at Annual Town Meeting.

The Selectmen are also working with the Town of Williamsburg to come up with a project to repair Haydenville Road. Originally we had intended to work towards obtaining funding for a project from Route 9 in Williamsburg to Chestnut Plain Road in Whately. We have decided to limit Whately's portion of the project from the Williamsburg Town line down to Strippe Road or perhaps the Haydenville Road Bridge. The engineering costs, which the town has to pay upfront, would be overwhelming to do the whole project. The Highway Department will continue to work on Haydenville Road from just east of Masterson Road to Chestnut Plain Road using Chapter 90 funds.

In August, Municipal Secretary Barbara Hancock moved on to the Town of Deerfield to serve as their Assistant Treasurer/Collector. We would like to thank Barbara for her 5 years with us. Her skills, energy, sense of humor and vibrant personality will be greatly missed. In October we welcomed Maryellen Cranston as the new Municipal Secretary. Maryellen comes to us with a great deal of municipal experience and has adapted quickly to this position.

We would like to recognize Fred Bardwell for his 30 years as Cemetery Commissioner. Fred chose not to run for re-election this year. Roland Kinsman also resigned as a Cemetery Commissioner this year when he moved to Bernardston. We appreciate the time and energy both members gave the town. Paul Fleuriel, Jr. was elected to the Commission and Lee Felton was appointed until the next election to fill the vacancy created by Roland Kinsman's resignation.

The Library Trustees saw two new members come on board to replace William Saunders and Joyce Tutun who chose not to run for re-election. We would like to thank Bill and Joyce for their many years of service as Library Trustees and we welcome Kenneth Moulton and Pamela White who were elected to fill the openings at the June 2010 election.

The goals for the Selectmen in 2011 will be to complete the Haydenville Road Bridge project, find answers to the bridge issues on Williamsburg Road and move on to the next step of the Town Hall consolidation/renovation project. As always we will work towards energy conservation for the town and seek grants to help fund projects and major purchases for the town.

In closing, the Selectmen would like to thank all the devoted employees who have committed themselves to the Town of Whately. We would also like to thank the voters, residents and taxpayers for their support. As always, we welcome visitors and comments at our Selectmen's meetings on the 2nd and last Tuesday of each month at 7 p.m. Please call 665-4400 to be put on our agenda.

Respectfully submitted,

Paul K. Newlin, Chair.

Jonathan S. Edwards

Joyce Palmer Fortune

2010 Annual Report of the Town Clerk

2010 was a busy year in the Town Clerk's Office. It started out in January with the Special Election to fill the vacant Senate seat left by Senator Kennedy. Annual Town Elections were held in June and the State Primary and State Election were held in September and November respectively. Annual Town Meeting was held in April and an overhaul of certain sections of the Zoning Bylaws were brought before the voters. The open space/cluster development section of the bylaw had the most changes. The Planning Board hoped to make cluster developments more attractive to developers who were considering subdivision projects. All bylaws passed as presented.

As in the past, I am working towards preserving the town's records. Over the last five years, funding for this project has been deferred. With passage of the Community Preservation Act, a new line of possible financing has opened up. In December 2010, I submitted a request for \$14,167 to finish the vital records preservation project. This will be a 2 year project and I am hoping that the Community Preservation Committee will look favorably on my request and recommend an article to Town Meeting in April 2011 to fund the first portion of this project.

I continue to look for ways to finance the overhaul of the Town Code which is a compilation of all the town's general bylaws, zoning bylaws, subdivision bylaws, personnel regulations and all other regulations adopted by the town. Our present Code is terribly out of date but funding has not been available to make the appropriate updates.

The 2010 Federal Census took place this year and as Town Clerk I served as the liaison with the Census bureau. Final figures for the town are unavailable as of the date of this report. I expect that the town's population will actually go down from the 2000 census.

In closing, I would like to remind everyone of my hours at the Center School Office building at 218 Chestnut Plain Road as they have changed as of Jan. 1st:

Monday Noon – 7 p.m., Tuesday, Wednesday, Thursday and Friday from 9 a.m. – 4 p.m.

If you have special needs that make visiting my office in the Center School difficult, please call me at 665-0054 and I will make arrangements to meet you in a more accessible location.

The following is a summary of the activities of the Town Clerk's Office for the year 2010. Please see www.whately.org for minutes of all town meetings and elections or contact the Town Clerk's office for copies.

Respectfully submitted,

Lynn M. Sibley, Town Clerk

Board of Assessors

The Board inspected ninety-two homes and businesses during the spring and summer, mostly homes with new growth—renovations, additions, new construction—and those that had sold in the past year. This past year has been a recertification year so we had to work closely with the Department of Revenue. Sales analyses indicated that land values had fallen throughout most of the town so values did, in general, go down for FY 2011. The tax rate was set at \$15.47 per thousand for fiscal year 2011. Town valuation by class is as follows:

Residential	\$173,677,562
Open Space (Ch 61)	1,785,319
Commercial	18,990.886
Industrial	18,522,300

Total	\$219,248,754

The assessors' office is open Tuesdays from 9 to 5 o'clock, Tuesday evenings 7 to 8:30 and on Wednesdays from 9 to 4. The Board reminds residents that the assessors will be making inspections Tuesday evenings starting in April 2011 and will continue throughout the summer until the evenings are too dark. During the summer the assessors are back in the office shortly before 9 o'clock. From Christmas until the end of March, the Board meets the first and third Tuesdays, although the office is generally open every Tuesday evening.

Katherine E Fleuriel, Chairwoman
Melanie A Chorak
Frederick P.Orloski
Cynthia C.Herbert, Assistant Assessor

2010 WHATELY AMBULANCE REPORT

I am pleased to submit this report of the 2010 activities of the ambulance and it's staff. Whately's ambulance is an Advanced Life Support (ALS) ambulance and operates at an Intermediate Level, with it's staff of five paramedics , five Intermediates and eight Basic level EMT,s. The ambulance responded to a total of 126 calls that were activated by the emergency 911 system.

The types of emergency calls where an ambulance is needed are;

- Motor vehicle accidents (mva)
- Motorcycle accidents ,both on and off road
- ATV and snowmobile accidents
- Injuries caused by any type of trauma
- Medical calls
- To stand by at fires

Our ambulance also responds to mutual aid calls to our neighboring towns of Hatfield, Sunderland and South Deerfield. In return these neighboring towns also provide coverage to Whately when needed. Because of Whately's location we are fortunate enough to be located within a short distance of two local hospitals. Also because of our close proximity to these hospitals, we are able to have the choice of a Paramedic intercept ambulance for the more critical calls come from either Northampton Fire Dept. or Baystate Health Ambulance from Greenfield. With a major highway going through the center of our town, we can be on the highway relatively quick, to transport a patient to a level 1 trauma center (Baystate Medical Center) in Springfield.

Whately's ambulance is one of five ambulances in Franklin County that is on the states task force team which means that this team can be called to respond to any incidence within the entire state when multiple ambulances are required.

In 2010 we purchased our first laptop computer to carry on the ambulance to electronically record the run report with all pertinent patient data, and it will soon be inservice on the ambulance. The state now requires that all patient data be sent to Boston within two weeks of any call. Our town secretary now has to enter all of this information manually, but when the new laptop becomes in service it will reduce the workload.

Our current ambulance is a 2001 and the state requires it to be replaced every ten years. It is now on the town's capital planning schedule. Something that we need to start thinking about.

All emergency medical personnel spend numerous hours of training to maintain their certifications. The state requires that an EMT must attend twenty eight hours of continuing education classes and attend a twenty four hour DOT refresher class every two years, as well as recertify for CPR and Defibrillator qualifications every year, to maintain their EMT status. All of this training is the soul responsibility of the individual EMT, and for all of this along with dropping whatever they are doing at the time to respond to an emergency in the town of Whately, they deserve a special thanks.

Again, I would like to thank our fire department and police department personnel for assistance when needed for Ambulance calls which required either traffic control or lift assist, etc.

The following is a list of Whately EMTs who responded to at least one Medical Emergency during 2010.

Gary Stone
John Hannum
Jason Dorval
James Bernier
John P. Kennedy
Brenda Clemons
Matt Marchand
Georgeann Dufault
Robert Grant

Robert Engelhardt
Jason Clemons
Ken Handfield
Greg Gagnon
Wendy Bardwell
Randall Williams
John Dubois
Alexander Ross
Michael Herbert

I would like to stress the point that if you feel that you might need an Ambulance, Please call 911 as soon as possible, it could mean the difference between life and death or the difference between a long stay versus a short visit in a Medical Facility.

Whately ambulance service is always looking for new recruits who are over the age of 18 and interested in helping your fellow neighbors in a time of need. If this is you, Please contact Gary Stone at gstone@gwprecision.com or any one of the above EMTs for information.

We currently have two of our firefighters in the EMT class at GCC, but we welcome anyone else who is willing to take the class and become an EMT.

If you have any questions regarding billing, you should contact Lynn Sibley, the Whately Town Administrator at 665-0054 during normal business hours. All other questions regarding the Ambulance Service, you can contact myself at 413-634-8460, or e-mail gstone@gwprecision.com.

In case of an emergency PLEASE call 911 as soon as possible and clearly state your emergency , your name and address, as well as your house number. Make sure your house number is visible from the street so that your house can be found quickly. SECONDS COULD MEAN THE DIFFERENCE BETWEEN LIFE AND DEATH!!!

Respectfully Submitted
Gary Stone
Whately Ambulance Director

Animal Control Officer's Report

The Animal Control Officer received 115 calls for service this year. Again, most calls were for stray or missing dogs. Please follow the state leash law, which states all dogs must be under control of their owner at all times. Also, there has been a large increase in sick wildlife. Please be careful when letting pets out or children out to play. Children should be advised not to go near wild or stray animals. The breakdown of calls received is as follows:

Stray dog	51	Dog put to sleep	1
Missing dog	4	Police assists	1
Dog killing poultry	5	Dogs kenneled	1
Aggressive dog	6	Bear	5
Dog bite	2	Raccoon	6
Injured dog	3	Porcupine	2
Animals in distress	3	Sick muskrat	1
Goat loose	1	Fox	2
Cows loose	3	Coyote	3
Missing cat	1	Sick skunks	4
Dogs returned to owners	9	Sick woodchuck	1

Animal Inspector's Report

The Animal Inspector issued 6 quarantines; 2 for dog bites and 3 for cats with wounds of unknown origin and 1 for Alpaca exposed to possible rabid muskrat. I also did 4 inspections of animals imported from out-of-state. The barn inspections were done and the results are as follows:

Dairy cattle	72	Horses/ponies	39
Beef cattle	110	Chickens	328
Oxen	12	Turkeys	3
Goats	33	Water fowl	34
Sheep	10	Rabbits	2
Swine	8	Pea fowl	6
Llamas/alpacas	68	Game bird	8

If I missed you for a barn inspection, please contact me at 665-8027. The state relies on this information in developing and implementing a response plan to an emergency.

Respectfully submitted,
Richard Adamcek
Animal Inspector

2010 Emergency Management Report

Emergency preparedness remains a top priority for local, regional, state and federal officials. Work continues on updating the various plans and reports required under Homeland Security, Massachusetts Emergency Management Agency and the Massachusetts Department of Public Health.

Emergency Management personnel worked with the Board of Health on the first drive-thru flu clinic. This clinic was a joint effort with the Boards of Health in Deerfield, Conway and Sunderland and flu vaccine was provided by Mass. Dept. of Public Health. These flu clinics are used as a training and planning platform for the Boards of Health to prepare for a pandemic event. Realizing that the traditional flu clinic brought people who may be contagious in contact with one another, we decided to try a drive-thru clinic in order to keep people from exposing one another to possible contagious diseases. We feel that this clinic was very successful.

The Town now has an emergency trailer thanks to a \$5,000 loss control grant provided by Mass. Interlocal Insurance Agency. The Emergency Management budget and the Highway Department budget supplemented the purchase of this trailer which cost \$5,800. The trailer is designed to respond to many types of emergencies and is stocked with barriers, traffic cones, shovels, racks, speedy dry and other emergency products and can carry the towns chain saws and other hand tools needed in an emergency.

Plans continue to be updated as required by various state agencies. We are also working on updating the towns Natural Hazard Mitigation Plan with the assistance of staff from the Franklin Regional Council of Governments. All emergency personnel continue to take training in Incident Command as required under Homeland Security.

Our new emergency notification system continues to be a valuable tool in notifying residents, employees and businesses of the status of emergencies in town. Although the main purpose of this system is to supply emergency information, the system has also been used for more routine matters such as reminders of meetings, elections or tax payment due dates. If you have not received a notification and wish to be included in the phone list, you may do so at whately.org or you may call the dedicated line set up for this system at 665-0300.

Respectfully submitted,

Lynn Sibley
Emergency Management Director

WHATELY FIRE DEPARTMENT ANNUAL REPORT 2010

The officers and members of The Whately Fire Department continue to proudly serve and represent the citizens of our great community. In 2010 the Whately Fire Dept. responded to 74 emergencies. The types of calls included emergency medical services, motor vehicle accidents, rescues, and even fires. Whately suffered three critical emergencies in 2010 involving a major hazardous materials spill, a total destruction structure fire and a devastating motor vehicle accident. Tri State Fire Mutual Aid which assists our neighboring communities as well as Whately is a valuable system that benefits everyone. There is an endless list of resources available in an every emergency situation.

31% of our emergencies calls were to support and assist the Whately Ambulance and 21% of our total calls were involving the interstate. Motor vehicle accidents, rescues, and assistance through manpower continue to be the majority of our emergencies. I would like to thank the officers and members with a well done while representing the town in a professional manner. All members are listed below, the* indicating certification as an Emergency Medical Technician.

DC Keith Bardwell	DC Gary Stone *	Capt. Wayne Hutkoski
Lt Donald Dufault	Lt Chris Sibley	Lt Jason Clemons *
Jason Dorval *	Jeffrey LaValley	William Gagnon
Randy Sibley	Peter Hannum	Matt Marchand *
James Bernier *	John Hannum III	Joshua Clemons
Gregory Gagnon *	Scott Hutkoski	J P Kennedy *
John LaSalle	William Smith	John Talmage
Charlie Tenanas	Mary Baronas *	Brenda Clemons *
John DuBois *	Ken Handfield *	Georgeann Dufault *
Brandon Stacy	Alex Ross *	Chris Sullivan
Dwaine Meehan	Alan Belden	Jason Antosh

The Whately Firefighters Association deserves special thanks as they continue to support the officers and members of the Department in numerous ways. I would also like to thank anyone who has helped the Fire Department or any of its members in any way.

Franklin County changed the procedure to issue Burning Permits; Whately is part of this new system. The new system is electronically operated and managed on the internet. In 2011 this system remains as in the past. The internet site fcburnpermits.com is user friendly. Again Burning Season opens January 15 and closes May 1 each year. Hazardous weather conditions may shorten the season so don't procrastinate, open burning should be completed early in the season.

The Whately Fire Department is always searching for interested citizens that would like to become involved with any aspect of the Department. In special need are Emergency Medical Technicians of any level of certification. If anyone would like to join or has any questions about the Department please contact either myself (JSHannum@comcast.net) or one of my officers.

I would like to warn all internet users about postings. Please be careful of what you post and consider the impact of the posting! I see pictures posted on numerous sites that are questionable and sometimes they cross the line. This warning is for all postings but especially the ones for emergency scenes. Please remember there are always privacy issues and there could be a future investigation regarding your pictures.

I would like to remind everyone to dial 911 to report a fire or emergency. Please be clear and concise with your message. Also answer all the questions that the dispatcher asks and stay on the line as long as necessary. For any other fire department related communications the Dispatch Center business number is 625-8200.

Respectfully submitted,

Chief John S. Hannum
Whately Fire Department

REPORT OF THE HAZARDOUS WASTE COORDINATOR

The annual Household Hazardous Waste (HHW) Collection Day, coordinated by the Franklin County Solid Waste Management District (FCSWMD), was held on Saturday September 25, 2010 from 9 AM to noon at Greenfield Community College and the Orange transfer station. 258 households participated in the collection. 8 Whately households were among the participants and delivered for safe disposal an estimated 140 gallons of hazardous materials. Whately's cost for HHW disposal services was \$566.

The next HHW Collection Day will be held on Saturday, September 24, 2011. Contact the FCSWMD for pre-registration details beginning in August - by phone 772-2438 or email info@franklincountywastedistrict.org.

All residents are encouraged to utilize year-round the Hazardous Waste facilities established by the FCSWMD at the transfer stations of Bernardston, Colrain and Conway. Whately residents will most likely use the Conway site located off Old Cricket Hill Rd. The wastes accepted at these facilities include mercury thermometers, waste oil products such as used motor oil, hydraulic oil, gear oil etc., oil based paints, oil filters, antifreeze. Additional information about these disposal sites (dates and hours of operation etc.) is posted on the bulletin board at the transfer station as well as the FCSWMD website:

<http://www.franklincountywastedistrict.org/supersites.html>

Rechargeable batteries, button batteries, and fluorescent light bulbs are recycled at the Whately transfer station. All alkaline batteries (such as Duracell, Energizer etc.) should be separated from household trash and given to the transfer station attendant for proper landfill disposal. These batteries are not recyclable and should not be burned in the Springfield incinerator where Whately's residual trash is disposed of.

Questions concerning the proper disposal of and alternatives to hazardous materials can be directed to either your Hazardous Waste Coordinator (665-2894) or the FCSWMD (772-2438).

Respectfully Submitted,

Bill Obear
Hazardous Waste Coordinator

ANNUAL REPORT OF THE FOOTHILLS HEALTH AGENT WHATELY

It has been another great year working in Whately. During 2010 I witnessed 12 perc tests and 10 Title V inspections; I issued 18 new septic system permits, and inspected 20 new septic systems. Ten inspections or reinspection of food establishments were done. Housing and nuisance complaints resulted in 12 inspections or investigations. I performed 3 public pool inspections and 2 inspections/reinspections at a family campground. Three well permits and 1 beaver removal permit was issued in 2010. A total of \$5425 was collected in fees.

The Department of Public Health created new regulations affecting public beaches, requiring beach operators to post information at the beach about water testing, and to be permitted by the local Board of Health. Under this regulation, the Tri-Town Beach is issued an annual bathing permit and monitored by the Board.

I was fortunate to be chosen to attend an in-depth training on the role of the Board of Health and me in the aftermath of a natural disaster, and I also received advanced training on housing inspections and pool operation and inspection.

I am happy to report that only 1 new case of Lyme disease in Whately was reported to me by the Department of Public Health in 2010. This is a significant decrease over the previous years. Continue to take precautions against ticks, and monitor yourself, your children, and your pets for the presence of ticks after being outdoors.

I may be reached at 268-8404. In-person help must be scheduled in advance. Written messages or mail should be directed to me at PO 447 Haydenville, MA 01039.

Respectfully submitted,

Jackie Duda
Health Agent
Foothills Health District

ANNUAL REPORT OF THE HIGHWAY DEPARTMENT

The winter began with little snow allowing the frost to settle in. Then in January we had a large rain storm which caused many fields and streams to flood. This then caused roads to flood since the land was unable to absorb it. Long Plain Rd. in the area of the school remains a problem area as there was some property damage. There is no simple fix to this problem. Without the funding to have an engineering firm look into all of the options this will continue to be an issue.

All roads were swept during the spring cleanup along with catch basin cleaning. Claverack Rd., Westbrook Rd., LaSalle Dr. and South Long Plain were prepared and then chip sealed.

We are working along with the American Rivers and The Nature Conservancy to have the culvert replaced on Conway Rd. that carries Jimmy Nolan Brook. This brook dumps into Westbrook and has been involved in the salmon and trout studies for 10 years. The American Rivers org. is securing the funding so that there is little cost to the town. To date mostly staff time is all that has been provided.

The bridge replacement on Haydenville Rd. over Westbrook Rd. began in September after a long wait. The project came to a halt shortly after as the contractor was unable to drive the necessary sheet piling due to unforeseen large boulders. Presently negotiations are ongoing with Ma. DOT, DEP, and the Army Corp. of Engineers to see if the contractor will be allowed to work earlier than the current permit allowance of June 1st. It is hoped that by starting earlier it will allow the project to be completed during the summer of 2011 so that we do not have to go through another winter with one lane traffic. Also it is unclear if the bridge will be totally closed or the continuance of the current lights.

Last year the selectmen from Whately and Williamsburg began discussing the possibilities of jointly applying for state money to rebuild Haydenville Rd. / Mountain Street. We now feel that this project will be too costly for the town to pay for so it has been scaled back and the section from the intersection of Chestnut Pl. westerly for approximately 6,000 feet will be done by ourselves. We are still looking into the possibilities of applying for state money for the section from Webber Rd to the town line.

As for our equipment, things continue to age. We have three full sized dump trucks. A 1997, 2000, and 2002. The projected life on them is 15 yrs. In ideal conditions we should be replacing one every five years however with the economy such that it is; I'm not sure when replacement will happen. We have reached the point where a lot of money is being spent on items that are not the normal wear and tear items.

We continue to offer free delivery of wood chips along with the sale of cordwood which goes towards the purchase of new trees. If anyone has any questions I can be reached at 665-2983

Respectfully submitted,

Keith Bardwell
Highway Superintendent

Police Department Report 2010

2010 was a financially trying year for the police department. State grant funds, which were previously used for training and equipment, have been completely eliminated. As a result, training has been reduced to what is minimally required for officers to maintain certifications and stay up to date on qualifications. Much of this training is done via the internet and is often done on the officer's own personal time. Also, community programs have been reduced due to lack of funding. Although there will be no grant funding for 2011, officers are still committed to the professionalism and level of service that is required of them.

Many residents have been asking about the status of our police cruisers. Although we currently have three cruisers, only one is in service. The two other cruisers have too many mechanical and safety issues to remain in service, and the cost of repair is just not feasible. There is discussion and plans being made for their removal. Our department employs nine police officers who patrol a sizable geographic area two shifts per day seven days a week. I feel it is unrealistic to think having one police cruiser is suitable for our operations. It is unknown at this time if funding will be provided for a second cruiser this year or not.

On a more positive note, we have completed exterior renovations to the police station. Most have seen the new paint job and police sign on the building, and have expressed great satisfaction as to the outcome. Thanks again to Sue Monahan, and all the hard working volunteers who organize and put on the Whately Police Triathlon, which raised the money to pay for the paint and the sign, as well as the installation of our new central air conditioning unit. Also a special thank you is in order for the Franklin County House of Corrections who provided the inmates which prepared and painted the entire building at no cost to the town. They also put up the new sign on the police station. They did an excellent job and took great pride in this project. In addition to the outside renovations, and thanks to a generous donation from Yankee Candle, we are completing work on the inside of the station as well. Work is being done to complete our training room, evidence room, storage, interview room, and other small projects.

On behalf of all of us in the Whately Police Department, we are grateful for all of the support and generosity that has been given to us. It is this support that brings communities like ours together and helps us stay committed to getting through these hard times together. Have a safe 2011.

Respectfully submitted,

Chief James A. Sevigne Jr.

REPORT OF THE SOLID WASTE COMMITTEE

In calendar year 2010, 117.87 tons of paper, glass, cans, and plastic containers were collected at the Whately Transfer Station and sent to the Springfield Materials Recycling Facility (MRF). 145.12 tons of residual waste was disposed of at the Springfield incinerator.

Two Clean Sweep or Bulky Waste days were held at the transfer station this year, the first on May 8, 2010 and the second on October 16, 2010. Both bulky waste days were coordinated by the Franklin County Solid Waste Management District (FCSWMD) and staffed by Whately volunteers. We'd like to thank Montserrat Archbald, Chris Boutwell (Montague), Vic Covalleski, Caroline Gear, Larry Kutner, Dana Robinson, Ronnie Williams and Clint Labato from the Town staff for their help.

These Bulky Waste collections provided for the recycling and disposal of a number of hard to manage wastes that included tires, scrap metal, appliances, TV's, computers and other electronics, construction and demolition materials (C&D) as well as bulky household items such as broken furniture, old carpets and mattresses. Modest fees were charged for most items to cover recycling and disposal costs. In addition to Whately residents, people from other FCSWMD communities participated in both bulky waste collections. For both collections Whately residents recycled an estimated 2.81 tons of appliances and scrap metal, 3.17 tons of TV's and electronics, and 1.06 tons of tires. In addition, an estimated 6.65 tons of C&D and bulky items were disposed of at a landfill.

A total of 142.22 tons of waste materials were recycled by Whately residents in calendar year 2010 which includes the items recycled at the MRF, the bulky items recycled, approximately 2 tons of clothing collected and recycled by Salvation Army, an estimated 12 tons of food waste collected at both the transfer station and elementary school and 3.31 tons of books collected by Got Books. A total of 151.77 tons of residual and bulky wastes were disposed of at the incinerator or landfill. These recycling and disposal numbers resulted in a calendar year 2010 recycling rate of 48.38%.

The Town's recycling program in calendar year 2010 resulted in a net recycling savings of \$8,663. This figure includes \$4,585 in recycling income from the Springfield MRF operator. The total solid waste disposal cost for 2010 was \$34,213. Revenue from the sale of Whately trash bags was \$25,938. Total 2010 solid waste revenue was \$30,523 including the MRF recycling revenue.

Once again the Solid Waste Committee thanks Alan Thackeray (now backup), Lee Felton (our Saturday transfer station attendant) and our new Tuesday afternoon transfer station attendant Quint Dawson for their dedicated service, pleasant attitudes and general helpfulness that makes the operation of Whately's transfer station extremely efficient and cost effective. We also want to thank Ethan Dickinson for his role in the success of the transfer station operation by hauling the food waste to Bear Path Farm and delivering the Whately Elementary School's paper and containers to the transfer station for recycling.

For current information on solid waste disposal options, we encourage you to look at the FCSWMD website, www.franklincountywastedistrict.org or contact the Whately Solid Waste Committee at 665-4561.

Respectfully Submitted,

Fran Fortino, Gary Lawrence, Bill Obear
Whately Solid Waste Committee

ANNUAL REPORT OF THE TREE WARDEN

This year was the first year that the entire budget wasn't used up by outside contracting to remove dead and stressed trees. Fifteen Elm trees were planted through out the town. With the town now selling cord wood and that money goes toward the purchase of new trees we hopefully can plant more trees than we cut in a year.

Deicing chemicals continue to stress Sugar Maples and they are not recommended to be replanted in the tree belt of the roadway because of this. Other species of trees that are more resistant to salt are recommended.

Other than Dutch Elm Resistant trees being replanted, I hope to begin replanting some Chestnut trees in the future. The trees have been backcross-bred to come up with a blight resistant tree.

If anyone has any questions or concerns about the trees along the roadways call me at 665-2983. We continue to take in Christmas trees afterwards to be chipped. The town will also deliver wood chips to any resident.

Respectfully Submitted,

Keith Bardwell
Tree Warden

Water Department

ANNUAL REPORT FOR 2010

This year's consumption was significantly higher than the previous year rising nearly 12%. The long, protracted dry spell of the summer caused consumption to rise by 3.5 million gallons.

The table below shows the monthly consumption figures:

January	1,735,301
February	1,850,439
March	2,055,739
April	2,709,590
May	3,738,716
June	3,558,300
July	3,933,589
August	3,878,214
September	3,444,356
October	2,631,567
November	1,774,394
December	<u>1,801,335</u>
	33,111,540

The revenue generated from water rates and fees was \$99,844.85

Work continues on upgrades to the system as part of a phased capital plan. The Commissioners would like to thank the citizens for their continued support in our upgrade efforts.

Meetings of the Water Commission are now on the first Tuesday of the month at 7:00 P.M. in the basement office of the Center School. We can be reached at 665-3080.

WHATELY AGRICULTURAL COMMISSION REPORT

The Whately Agricultural Commission worked on a variety of projects in 2010. Perhaps the Commission's most important activity in the spring of 2010 was our active support of the revised innovative zoning changes that were ultimately approved at the annual town meeting in April. These zoning changes, which members of the Agricultural Commission worked closely with the ad hoc Zoning Task Force committee to develop, will have a positive impact upon farmland and open space preservation. The Agricultural Commission is appreciative of the overwhelming support for these zoning changes at town meeting.

On Saturday March 13th, the Agricultural Commission sponsored a farm informational meeting to acquaint Whately's landowners and farming community with the activities of the Agricultural Commission and to provide a brief overview of farmland protection strategies. Nathan L'Etoile, Assistant Commissioner of the Massachusetts Department of Agricultural Resources, summarized state programs that temporarily protect farmland, forestland and open space (Chapters 61, 61A, 61B), as well as the Agricultural Preservation Restriction (APR) program that pays landowners to permanently protect their farmland. There were also discussions of the proposed changes to Whately's zoning regulations to encourage farmland and open space protection, as well as USDA programs and CISA activities. A survey of Whately's farms was included in the announcement for this meeting.

The Commission, along with other town committees and boards, prepared for the Community Preservation Committee (CPC) a set of priorities and objectives for the next five years. This information will be used by the CPC in preparing a Community Preservation plan for Whately.

Other activities included:

- Meeting with the Conservation Commission to discuss mutual concerns and interests including jointly hosting (in March 2011) a wetlands informational meeting for farmers
- Attending to a grievance between an abutting landowner and a farm operator
- Reviewing and supporting three new APR applications for Whately farmland
- Compiling data from the survey of Whately Farms
- Applying to the Community Preservation Committee for Town matching funds for the Maiewski & Helstowski APR projects

The following Disclosure Notification (Section 4 of the Whately Right To Farm By-Law) is required to be published by the Town of Whately on an annual basis in the town report

DISCLOSURE NOTIFICATION

"It is the policy of this community to conserve, protect and encourage the maintenance and improvement of agricultural land for the production of food, and other agricultural products, and also for its natural and ecological value. This disclosure notification is to inform landowners and occupants of the Town of Whately that the property they own or occupy lies within a town where farming activities occur. Such farming activities may include, but not limited to, activities that cause noise, dust and odors. Landowners and occupants are also informed that the location of their property may be impacted by commercial agricultural operations by existing right of ways or rental agreements already in place for such property under certain circumstances."

Members of the Agricultural Commission:

John Devine	Timothy Nourse (Chair)
William Obear	

2010 Capital Improvement Planning Committee Report

Established in 1995, the Capital Improvement Planning Committee (CIPC) is responsible for long range planning for capital projects ensuring adequate funding on an ongoing basis. The CIPC studies the need for proposed capital projects and improvements and makes recommendations on the priority of each proposed item. The CIPC also considers the relative impact, timing and cost of these expenditures and the effect each will have on the financial position of the town.

A five-year plan has been developed by the Committee and is updated each year based on changing needs of town departments. In 2010 the Capital Improvement Planning Committee recognized that given the financial condition of the Town and the State we were not going to be able to fund items on the capital plan for the foreseeable future without an additional revenue stream. The CIPC along with the Selectmen and Finance Committee recommended establishing a Capital Stabilization Fund, which would be funded by an override of \$60,000. This fund would serve as a savings account that would allow the town to plan for future capital purchases more easily. The Capital Stabilization Fund would have built up over a few years in order to purchase large ticket items without having to borrow and pay interest. The vote passed unanimously at Town Meeting but did not pass the necessary ballot vote that was brought to the Annual Town Election and again to the November election. Without funding availability, the town will have to bring each item to a debt exclusion vote, which will in turn require borrowing and the payment of interest.

In 2010 the CIPC recommended funding the following items for FY2011. However, because the Capital Stabilization Fund did not pass, the only project that was completed was the Fire Station Roof replacement which became critical when the roof started to leak in multiple spots. This money was taken from the regular Stabilization fund. The CIPC would like to recommend replenishing this fund if possible.

1. Fire Station Roof replacement \$25,000
2. Town Hall scrape and prime \$5,000 – (Complete renovation project planned in 2012)
3. Replace 2004 Police Cruiser \$30,000
4. Stabilization Fund \$20,000 earmarked for ambulance replacement

FY 2012 brings new challenges to the Capital Improvement Planning Committee. Over the past three years, many projects have been pushed forward on the plan resulting in a large number of projects on this year's list. The CIPC met and prioritized the following projects that they are recommending to the Finance Committee for funding.

1. Fire Panel for the Elementary School - \$5,000
2. Replace 2004 Police Cruiser - \$30,000
3. Town Hall scrape and paint - \$5,000 (Franklin County Sheriff's Department to do the work.)
4. Dump Truck for Highway Department - \$130,000
5. Ambulance Replacement - \$165,000

The Capital Planning Committee also recognizes that the debt excluded third and final year payment for the elementary school roof of \$64,752 will also need to be funded this year. These suggestions will be submitted to the Finance Committee. It is still too early in the budget season to know which of these projects will be approved by the Finance Committee for funding either with available funds or a debt exclusion.

Respectfully submitted,

Capital Improvement Planning Committee

2010 Cemetery Commissioners' Report

This report will begin with a well earned thank you to Fred and Adelia Bardwell for a lengthy stewardship of our three town cemeteries. Fred felt it was a timely move and Paul Fleurial ran for his position. Shortly after, Roland Kinsman relocated to their farm in Bernardston. The Select Board appointed Lee Felton to fill that unexpired term. Alan Thackery has been working on the grounds maintenance for a period of time. He has indicated he would like to step down from that to spend more time with his family. A well earned thank you.

We are presently establishing an office at the Center School building below the Select Board's office. Meetings are scheduled as needed with the required public notice.

Fred Oakley has provided excellent guidance and it is our intention to follow up with his suggestions. The Historical Committee along with other volunteers held several work bees. We are presently compiling a list of needs in each of the three cemeteries. One of the early projects was to install a frost free yard hydrant for water at the cemetery and working on the stone markers, which included cleaning, repairing and resetting stones that needed attention. This will continue during suitable weather. At town meeting this year, there will be an article to increase our lot fee from \$500 to \$550.

We had five burials at the Center Cemetery. We are looking for any persons interested in joining our group of restoration volunteers. Please do not feel you need to have prior experience. Our O.J.T. is ongoing.

Respectfully submitted,

Paul Fleurial
Peter Hannum
Lee Felton

2010 Conservation Commission Annual Report

The Conservation Commission is charged with implementing the state's Wetlands Protection Act using regulations written by the MA Department of Environmental Protection.

Over the course of the past year the Commission considered and issued seven Determinations of Applicability (determinations as to whether or not a wetlands permit is required), reviewed four Notices of Intent and issued three Orders of Conditions (wetland permits). Two Certificates of Compliance were issued. It took action four instances to ensure compliance with Orders of Conditions and address work being done without necessary permits. The Commission also addressed numerous questions from residents about the wetland regulations and the permitting process. In 2010 the Commission voted to endorse three applications for the MA Agricultural Restrictions Program.

This past year Terry Reynolds resigned from the Commission after six years of service. Terry's expertise and experience, as well as his knowledge of the regulations, were a tremendous asset to the Commission. The Commission extends its heart-felt thanks to Terry for his service to the Commission and the Town of Whately. In December, 2010, Montserrat Archbald of Westbrook Road was appointed to the Commission to fill the seat vacated by Terry. Welcome Monty!

Respectfully submitted,

REPORT OF THE ENERGY COMMITTEE – 2010

Last year the Energy Committee had reported that the town was in the process of developing an Energy Performance Contract with Siemen's Technology. We did receive a grant for an Owner's Agent to help us develop this contract. Under an energy performance contract, the contracted company Siemen's Technology would upfront costs related to energy improvements and the town would pay back those costs through the savings that resulted from the improvements. Last year at this time we were awaiting the Investment Grade Audit from Siemen's along with a proposed project. The project that Siemen's proposed was not a cost neutral project. The town would have had to come up with \$78,000 towards the project and that was an amount the town does not have. The grant that we had applied for to help towards energy improvements was not funded. Had we received this grant we may have been able to use the money to fund the towns portion of the Energy Performance Contract. Because of the lack of funding, the Selectmen and Energy Committee reviewed the proposal and decided not to participate in the energy performance contract.

However, the audits performed at no cost to the town identifies improvements that the town could make to save energy costs. The energy committee has completed some of these improvements. Energy Committee members, Lynn DiTullio and Nat Fortune worked at sealing up some of the old air ducts in the Center School Offices. Lynn DiTullio received quotes for interior storm windows that could be installed at the Center School. The Whately Historical Society voted to put \$1,000 towards the purchase of these interior storms. In October, Town Meeting voted an additional \$1,200 so that this project could take place. In November, Lynn DiTullio, Nicholas Jones and Richard Spencer installed the storm windows and we have noticed an improvement in the drafts. The interior storms can be removed in the summer to allow the windows to be opened. We would like to thank everyone involved in these improvements.

The Energy Committee will be looking for its next project which will possibly be adding additional insulation in the attic of the Center School building. The Selectmen have chosen to seek Green Community status for the town and the Energy Committee will be involved in this project as well.

Whately Historical Commission Annual Report for 2010

In 2010, the commission spent much of its time on Community Preservation Act related activities. We produced a list of priorities and criteria for the Community Preservation Committee which they adopted to evaluate CPA funding requests that concern historic preservation.

Our recommendations were based largely on the results of the Heritage Landscape Inventory project which was described in last year's report. Our priorities for CPA funding include the preservation of historic structures and landscapes, investment in documenting the town's historic resources, the improvement of archival preservation of both the town's official records as well as the collections of the Whately Historical Society and projects that increase public awareness of the town's historic areas and structures.

During the last year, we have been working with faculty at Smith College's Landscape Architecture program to encourage student interns to help us with historic preservation projects. We have seen our groundwork pay off. This summer, we expect to have two students, funded by the college, who will be working on several historic preservation projects in our town.

The Commission is still seeking nominations, including self-nominations, for the Historic Preservation award for this year. To be eligible for an award, the commission looks for structures that are located in Whately, are at least 50 years old, are in good condition and are preserved or restored consistent with its historic style.

Part of our mission is to review plans for construction projects of various kinds that affect our town. We provided comments during the past year to the town Planning Board and to various state agencies planning work in Whately. In this process we try to support the goals of the town's Master Plan and the Community Development Plan. Both of these aim to preserve the rural character of our town in part through historic preservation.

Members of the Historical Commissions are also serving on the Community Preservation Committee and the building committee, which is examining planning and funding for town hall renovations.

As always, I want to thank the members of the Commission for their willingness to serve. We also encourage more volunteers to join us. We still have one vacancy. The commission can have as many as 5 members so another volunteer would be welcomed.

Implementation Committee/Zoning Task Force – 2010

The Implementation Committee was appointed by the Selectmen back in 2005 to work towards achieving many of the goals of the Community Development and Master Plans for the town. Three years ago we concentrated on the passage of the Community Preservation Act. In 2010 we concentrated our efforts on proposed zoning bylaw changes primarily around open space preservation, subdivision and cluster development. In 2009 the Implementation Committee joined forces with the Planning Board and Agricultural Commission to work on revising the zoning bylaws with the assistance of the Franklin Regional Council of Governments Planning Director, Peggy Sloan.

At the April 2010 Annual Town meeting zoning bylaws were passed that:

- Protect the farmland and rural character of Whately
- Promote better designed development that will help protect water quality and natural resources including farmland
- Encourage the provision of affordable housing
- Support working forests and farms
- Avoid impacting traditional roadside building lots known as “Approval Not Required” (ANR) lots

Since passing these bylaws, the Implementation Committee has taken a short break before they tackle the next project

TOWN OF WHATELY, MASSACHUSETTS

WHATELY PLANNING BOARD, Donald Sluter – Chair
Fred Bardwell, Nicholas Jones, Judy Markland, Julie Sibley – Members

PLANNING BOARD YEAR END REPORT- 2011

As in the last two years, much of the Planning Board's time this year has been taken up in dealing with the details of the Pine Plains Estates subdivision. The addition of five more lots in Phase II, which were in the portion of the subdivision that did not have clear title has been conditionally approved. The board is awaiting resolution of the conservation easement for the open land to the west of the subdivision to release the first lots for sale.

The Board continues to monitor the progress of completion of common driveways pursuant to approved plans.

Over the year, the Board received numerous Approval Not Required applications for its review and to sign off. We also had several applications for site plan approval and approved one special permit, as well as supporting the awarding of Agricultural Preservation Restriction status to two parcels.

The Board had a Public Hearing relating to the implementation of cluster zoning for the purposes of updating the cluster zoning by-laws. The new zoning by-laws were approved at Town Meeting on April 27, 2010, and recently approved by the Attorney General. The Board has also updated some of our forms, and is in the process of updating the Subdivision Regulations.

With the resignations of Anita Husted and John Torchia last year, the Board was short one member. In September, the Board was pleased to welcome Julie Sibley as our fifth member.

Respectfully submitted,

Donald Sluter – Chair

WHATELY CULTURAL COUNCIL 2010 ANNUAL REPORT

The Whately Cultural Council held its public meeting on Tuesday, December 21, 2010 in the Town Hall to discuss its priorities and grant procedures. Only one member of the community other than members of the Council was present. Those assembled discussed the priorities that have guided decisions on grants from the Council in recent years and there was consensus to reaffirm those priorities. “The Whately Cultural Council gives preference to grant applications from local institutions, organizations and community events, with priority given to programs that benefit children or seniors. The Whately Cultural Council does not approve grant applications from performers who do not have sponsorship from a local institution, organization or community event. Such sponsorship must be evidenced by a letter from an authorized representative of the relevant institution, organization or community event.”

The Cultural Council also met on Tuesday, December 21, 2010 in an open meeting in the Town Hall to consider grant applications for awards in 2011. By the closing deadline for postmarks, October 15, 2010, the Council received 31 applications seeking awards totaling \$15,525. The Council had \$3965 to allocate, made up of the (reduced) annual allocation from the Massachusetts Cultural Council of \$3870 and \$95 in unspent funds from 2010 awards. The Cultural Council made 14 awards to the following applicant or benefitting organizations (some of which received more than one award): S. White Dickinson Memorial Library, Whately Historical Society, Whately Elementary School, Frontier Regional School, South County Senior Center, New England Wildflower Society Nasami Farm, Frontier Community Access Television, and Watermelon Wednesdays.

Frontier Community Access Television, Inc.

8B Elm Street

South Deerfield, MA 01373

Frontier Community Access TV, Cable Channel 12 for Conway, Deerfield, Sunderland and Whately operates from a humble studio and production facility at 8B Elm Street in South Deerfield. Over the past year we have seen a lot of growth, many new volunteers, new equipment, and new offering on our shared education access channel.

Here are a few of the touchstone events of the past year.

This time last year we were basking in the success of our first Live Telethon at Frontier to benefit the music department. We successfully raised enough money to significantly offset the cost for the band students to attend a music competition in the DC area. It was also the first big test of our Field Production Unit, or “Road Case”, which allows us to broadcast live or record events with multiple cameras. This year’s Telethon (April 7) is on track to be even better than last year, including art and woodworking in the event.

In September we welcomed Kevin Murphy as the new operations manager. In addition to maintaining everyday operations, Mr. Murphy has trained an “army of volunteers”, primarily FRS students. Along with some adult volunteers, the “army” has been hard at work through the fall bringing you Frontier sports and arts events, as well as FRS school committee meetings and Local Lens, our own local events informational program.

In January, the “army” began live broadcast of Frontier Basketball home games, with live commentary by FRS seniors. We are currently trying to raise enough money (\$7000) to allow for live broadcasts from the football and baseball fields at FRS. Local businesses are stepping up to help start the fund, ***if any readers of this report are interested in supporting this effort, please contact FCAT’s outreach director, Eric Goldstein at the station (665-0012 or mail@fcatt12.org).***

We had a major equipment upgrade in late November, which has already allowed us to offer a greater variety of programming on Channel 12. Our new digital video server will eventually allow us to offer Satellite programs from Free speech TV, something that residents have long requested. This server can produce signals for up to 4 public access channels, and we are working on using 2 of those channels for the government access channels for Deerfield and Whately – this will make it easier for the towns to offer a wider range of programming on Ch 15, including rebroadcasts of public meetings, without interfering with their live broadcasts of public meetings. It will also allow the towns a more convenient web based access to the community bulletin boards on Ch 15, making it easier to update in a timely manner.

In the near future, we plan to 1) offer web streaming of the content on our digital server, including public meetings, sports and arts events and 2) begin broadcasting in parallel on Ch 17 to the 4 towns, which we hope will make it easier to keep both our polka fans and our sports fans happy.

Submitted by FCAT Board of Directors chair Joyce Palmer Fortune and Operations Manager Kevin Murphy

Sincerely,

Joyce Palmer Fortune
Chair, Frontier Community Access Television, Inc.

SOUTH COUNTY SENIOR CENTER

The mission of the South County Senior Center (former Frontier) is to identify and meet the nutritional, social, intellectual, health and safety needs of elders from Deerfield, Sunderland and Whately through the presentation of activities and services in a safe and comfortable environment. The senior center is a joint venture of all three towns. The Board of Oversight, including one representative from each of the Select Boards, oversees the operation of the center. Current members of the Board of Oversight are: Jonathan Edwards from Whately, Tom Fydenkevez of Sunderland, and Mark Gilmore from Deerfield. The senior center is staffed by a Director, who works 25 hours per week and a Program Assistant who works 10 hours per week. A Franklin County Home Care Corporation employee works 9 hours per week in the kitchen to prepare and serve meals on Mondays, Wednesdays and Fridays. For about half of 2010, Lisa Ballou, a Deerfield resident, served as an Interim Director. Others filled in temporarily in the summer until the new Director, Mary Wheelan, was appointed in August. Desiree Jarosz, was appointed in October. In addition to paid staff there are volunteers who provide very valuable services for elders in the area, both here at the senior center and out in the community.

The regular hours of operation are Mondays, Wednesdays and Fridays from 9 a.m. – 1 p.m. but activities and special events are sometimes scheduled outside of those hours. Mary is also available at 665-1441 at other times. Some of the regularly scheduled activities include: tai chi, osteoporosis exercise class, peer led exercise, Wii Bowling, cards, games, and crafts. Coffee and snacks are served in the morning and a meal is served at noon. Some special events that took place during 2010 included: a Green Bag Day (pharmacists and nurses were available here at the center to review seniors' medications), a holiday dinner in December, a harvest dinner, and entertainment was provided a number of times on and off site through a grant from the Whately Cultural Council. And, elders have been entertaining each other via a popular event scheduled once or twice a month called Song/ Poem/ Story Circle where people take turns sharing original or cover material.

The number of seniors in the area served by the senior center has grown considerably and further growth is expected. As of June 30th the combined total of people age 60 and over in Deerfield, Sunderland and Whately was 2,189. As the number of seniors grows and funding resources shrink a greater emphasis will need to be placed on the availability of services and information online. It is for this reason that the senior center's monthly newsletter, *South County Elder New*, became available in October each and every month on the town web sites of Deerfield, Sunderland and Whately. Hard copies of the newsletter have been available at the senior center and at the town halls and libraries in all three towns. Anyone not able to get the newsletter online and/or not able to get out and pick up a hard copy can request that it be sent through the mail.

Respectfully submitted,

Mary Wheelan
Director

S. WHITE DICKINSON MEMORIAL LIBRARY LIBRARIAN'S 2010 ANNUAL REPORT

STATISTICS:

Materials checked out: 8,757
Number of Patrons: 1063
Collection size: 16,772 items

The S. White Dickinson Memorial Library celebrated its 60th Anniversary in 2010 with an active year full of programs and services. The library staff, Board of Trustees, and Friends of the Library all worked towards establishing the library as a community center – making resources and programs available for all ages. We also looked towards the future and established a stable computer network, organized library files and databases, and cleaned out the basement storage room (discovering thousands of rancid survival biscuits from the 1960's). We also built a new collection of DVDs featuring all the new releases you just missed in the theater. The Long Range Planning committee hosted a focus group to gather community input on the direction of the library for years to come. One immediate change following that session led to new library hours which include more evening access and additional opportunities for programs such as the new Writing Group, monthly Book Discussion Group, Movietimes, lectures, yoga classes and more. Our new hours are Monday, Tuesday, and Wednesday 1-8pm and Saturday 10-3pm. The library's Community Room is also available for meetings and events. Sign up for our monthly email newsletter by writing to whatelypubliclibrary@gmail.com.

Library Director, Tiffany Hilton, planned numerous activities with the generous support of the Whately Local Cultural Council and the Friends of the Whately Library. Highlights from 2010 events were the annual Summer Reading Program, a comedian and mime, storytellers, cooking demonstrations, a Mister G concert, and craft workshops for adults and children. The most notable, perhaps was the revival of the Holiday Fair – an old tradition brought back to life. Ena Cane would be proud.

2010 also marked the end of an era for the Western MA Regional Library System (WMRLS) which was consolidated into one state-wide system on July 1st. The new Massachusetts Library System (MLS) will strive to support small public libraries such as Whately in the same personal and professional manner. Most importantly, they will keep delivery service intact so Whately library patrons may borrow inter-library loan items from other area libraries.

FRIENDS of the LIBRARY: The Friends board passed the baton to a new group in the spring – and they took off running. Thanks to Susan Boone, Katie & Jim Ross, Linda Theriault, Sheila Powers, and Martha Goodridge for joining the Friends board and pitching in to support the library. With your help, we have raised funds to enrich programs and services and sponsor events like the Summer Reading program, annual Book Sale, monthly Movietimes, a poetry workshop with Leslea Newman, a lecture on geomorphology from Will Ouimet, and the library's 60th Anniversary celebration. Special thanks to Sara Cooper, Jeannine Atkins and Jeanne Kocsis for their many years of service and for making the transition to a new board so fluid. Kudos must go to Jim Ross for taking on the role of treasurer and for putting up a giant tent over our book sale.

WEBSITE/COMPUTERS: Our high speed internet connection and wireless network offer the community a place to access online resources – fast and easy. Library staff can offer assistance or instruction with any questions you may have. Our website is maintained by Judy Markland with current events listings and news available at www.whately.org/library.

VOLUNTEERS: We couldn't do it without you. Thank you to Bryanne McDonough, Bobby Kieras, Barbara Banik, Sharon Young, Judy Markland, Lynda Dubois, Paul Fleuriel, Robin & Alexis Foley, Michelle Melnik and Jan Brown...and to the Trustees and Friends of the library for all your time and effort.

DONATIONS: Signature Sounds President and Whately resident, Jim Olsen, continues to donate each new CD on his record label to keep our collection current. Thank you to LaSalle's for maintaining our flower boxes all year and to the Chamutka family for the beautiful fall decorations and holiday wreaths.

Thanks to our loyal library patrons for your appreciation and support – whether you read dozens of books, borrow DVDs or use our computers or copy machine – we love when you stop in to see us. Lastly, we value the commitment of Betsy Cook – who has worked at the library for over ten years.

We welcome your suggestions always – and look forward to seeing you in 2011.

Respectfully submitted,

Tiffany Hilton
Library Director

Recreation Commission

The Recreation Commission had another successful year serving the youth of Whately through the organization and staffing of recreational sports and community activities. We continue to offer programs in the traditional sports of baseball, softball, basketball and soccer, but we are just as excited to have begun working with additional volunteers in an effort to expand our program. Beginning this January, the Whately Recreation Committee was pleased to support a Garland Dance Team open for children from all four Union 38 towns to participate. We look forward with anticipation as we continue to expand the scope of those programs offered through the recreation committee.

Participation in many of the programs continued to grow in 2010. Most notably, more than eighty children registered and participated in Whatley Youth Soccer; the most ever. Also, the Softball program too continues to grow. This while the numbers of participants in Basketball and Baseball remained steady.

Improvements at Herlihy Field continued this past year. Most evident was the re-leveling and sodding of the sixty foot baseball diamond. This great improvement has led to more than just an enhanced playing experience for Whately's youth. Herlihy Field served as the venue for the first annual Major League Baseball Tournament. This outstanding event was a great close to the season for all Union 38 towns and we in the Recreation Committee are very proud to have been able to hold such an event in our town.

It must be noted that the completion of the improvements to the small diamond at Herlihy Field would not have been nearly as impressive without the great support and partnership with Deerfield Academy. Deerfield Academy provided equipment, manpower and expertise to the project. A great many thanks have been passed onto the staff from Deerfield Academy for their assistance in this transition.

Herlihy Field continues to host men's and co-ed baseball teams from May to September on the larger ninety-foot baseball diamond. These teams, especially the Whately Pioneers of the Vintage Baseball League, provide great entertainment on a weekend afternoon or evening. This field also served as the home field for the University of Massachusetts Club Baseball team and was used by several summer baseball leagues.

The Recreation Commission is very excited to be planning additional improvements in 2011 to each of our sports venues. A final top layer of soil will be added to the "Blue School" field to bring it to a more desirable consistency. Once completed, this surface and field will be one of the best softball fields for youth softball in Union 38. New soccer goals will be installed on the small soccer field and they will be re-positioned as to ensure they are properly aligned. Additionally, we will be rebuilding the storage shed which was recently left unusable due to this winter's high level of snow accumulation.

Other improvements will be less noticeable, but still very important. Matters such as the replacement of our town's baseball uniforms will give our players a better sense of pride and enjoyment in their team and town. We will be looking to add a flag pole to Herlihy Field as well.

Lastly, for 2011, we are hopeful to continue to expand our listing of offering to members of the town. Our goal is to move beyond youth athletics and add additional non-sports activities for youth and for all others who live in our community, as well as additional sports programs for adults. One example of this would be the three on three basketball tournament that we are looking to host toward the end of March.

We are extremely thankful to the townspeople of Whatley for supporting our programs throughout the year. Those individuals that volunteer to coach, officiate and help with field maintenance are extended special thanks.

Without their selflessness and desire to make our community the best it can be, there is no doubt that our successes would be greatly reduced. We look forward to your continued support as we continue to offer opportunities for the residents of Whately to be proud of their efforts to our community.

Respectfully Submitted,

Nicole Ciesluk, Chip DeForest, Carrie Fydenkevez, Todd Jarvis, Jamie Vielmetti, Fred Warren, and Sheila Zewinski

TRI-TOWN BEACH DISTRICT

William Skroski – Co-Chair
Elizabeth Orloski
Susan Monahan

Edie Ostrowski – Co-Chair
Sharon Paciorek
Dana Lavigne

The 2010 beach season was very successful. The price of passes remained the same as they have been for over 8 years, \$35.00 for residents of Whately and Deerfield, and \$50.00 for the residents of Sunderland, Conway, and Hatfield. Passes for senior residents of all 5 towns were still \$10.00.

The District had weekly water testing, as is mandated by the Commonwealth of Massachusetts. This kept the beach a very safe and pleasant community resource. We did have some beach closings due to the failure of a few of the water tests, but they occurred with only a few days left in the season. The weather was absolutely gorgeous all summer, very sunny and warm.

In 2010 Tri-Town Beach was home base to Whately's 3rd Annual Triathlon, organized by Sue Monahan. This event raised \$5,000.00 to benefit the Whately Police Department. Many thanks to all of the residents of Whately and Deerfield who participated, volunteered, or came out to cheer. Special thanks to the Whately Police and Fire Departments, Hatfield Police and Fire Departments and the Northfield Dive Teams for donating their time and resources to make this a successful community event. The combined efforts and support of the local community make this event very rewarding and enriches our 'small town' appeal.

The District also held its annual "Appreciation Day". This is a great event held every season, and it brings the surrounding communities together. The Frontier Senior Center was welcomed at this event as well. The beach was also host to many birthday parties and family gatherings for pass holders, as well as River Valley Day Camp. Deerfield Recreation Swim Program held swim lessons at the beach, offering many skill levels to both children and adults.

The commissioners are looking forward to the 2011 season. Please feel free to contact any of the commissioners with feedback, questions, or comments. We strive to keep this very valuable town recreational facility enjoyable to all residents.

Respectfully submitted,

Susan Monahan

Franklin County Technical School District **2010 Annual Report to Towns**

We submit this annual report for 2010 on behalf of the Franklin County Technical School District and its administration, faculty, staff and students.

Total enrollment as of October 1, 2010 was 504 students with town breakouts as follows:

Bernardston	11	Erving	16	Montague	72	Sunderland	18
Buckland	16	Gill	13	New Salem	10	Warwick	7

Franklin County Technical School awarded 114 diplomas to our seniors in June of 2010. Massachusetts students are required to pass the MCAS in order to receive a high school diploma and once again our students were very successful in meeting this high academic standard. The graduates also earned their vocational certificate along with their diploma. 46% of our graduates planned to go on to either a two or four year college, 32% joined the area work force, 4% planned to join the military, 6% went on to a post secondary trade/technical school, and 14% were unsure as to which of the above options they would pursue. We are proud of the accomplishments of the Class of 2010.

All schools in the Commonwealth are required by the federal No Child Left Behind Act (NCLB) to meet or exceed specific student performance standards in English/language arts, mathematics and science. The Franklin County Technical School is proud to note that, both in the aggregate and for all subgroups, it met these adequate yearly progress determinations for the 2009–2010 school year.

During 2009-2010, the students from various vocational programs performed a variety of service projects benefiting many of our member towns and the city of Greenfield. We plan to continue supplying our constituent towns with these services as they offer both the ideal learning laboratory for our students as well as an opportunity to contribute back to the communities that have supported us so well over the years. A small sample of recent projects include a timber framed pavilion for the town of Northfield Council on Aging, a water tank project for the town of Montague, a sign project for the town of Bernardston, a house building project in conjunction with Habitat for Humanity and the installation of numerous interactive whiteboards and projectors for Whately Elementary School. Students from many shop areas also continue to routinely assist our building maintenance department, supplying services that would otherwise be contracted to outside agencies.

Articulation agreements are contracts that guarantee college credit for work performed at the high school level as long as very specific requirements are met. In some circumstances, seniors at F.C.T.S. are able to earn more than half a semester of college credit prior to graduation. F.C.T.S. currently has articulation agreements in place with Greenfield Community College, Mt. Wachusett Community College, Springfield Technical Community College, Vermont Technical College and other post secondary institutions who have agreed to award college credit for work completed in our business department, CAD/CAM department, Information Technology program and Business Technology program. We are working to develop further agreements that will benefit our students in other program areas as we begin to look at discussing agreements with the labor unions that would translate into shorter probationary periods and higher starting pay for our graduates. We

continue to strive to provide our graduates with multiple options for career paths along with the technical skills that allow them to “earn as they learn” at a pay rate that is well above entry level rates.

We were fortunate to have the opportunity to work closely with Greenfield Community College as they offered a pioneering Weatherization Installer Course. Franklin County Technical School provided the space necessary for the laboratory and classroom instruction. The curriculum was developed by both Springfield Technical Community College and the Massachusetts Clean Energy Center and is the first of its kind in the nation. Designed to prepare students for a career as a residential weatherization installer capable of cost effectively air sealing and insulating single family and small multi-family dwellings using current best practices, we had a carpentry instructor and a student from our plumbing and heating program complete the course. Select portions of the curriculum will be integrated into our existing programs using the state-of-the-art training mock-ups located on our property. F.C.T.S. will continue to work to expand our collaboration with GCC in the area of renewable energy and sustainable energy for the mutual benefit of both institutions.

F.C.T.S. introduced a Robotics elective in the 2010-2011 school year. Students in this program design, build and learn to program their own robots. As they gain new skills, they are presented with increasingly more difficult challenges. Students work in teams to find solutions to specific situations and eventually have the opportunity to compete against robotics teams from other schools. The study of robotics, by its very nature, captures all four legs of STEM (science, technology, engineering and mathematics) very well while a competitive environment increases motivation and desire to succeed, thus creating classroom environments where both knowledge and skill development can flourish without having to compromise one for the other.

F.C.T.S. is preparing to introduce a new program, PROJECT LEAD THE WAY (PLTW), scheduled to be ready for September 2011. PLTW is a national non-profit organization that partners with high schools to implement a curriculum that emphasizes hands-on experiences in STEM. The overall goal is to encourage a more diverse group of students to consider careers as scientists, technology experts, engineers, healthcare providers and researchers in an effort to enable the United States to remain competitive in the global economy. PLTW teachers must pass a pre-core assessment and receive intensive two week training before they can teach under this program. Students who are selected to participate will experience five rigorous courses over their four years at F.C.T.S., designed to prepare them for entry into the fields of engineering, science or other related areas. Students will develop problem-solving skills and apply their knowledge of research and design as they create solutions to various challenges. Courses such as Introduction to Engineering Design, Digital Electronics, Principles of Engineering, and Computer Integrated Manufacturing prepare students for post secondary success in a wide variety of STEM based careers. We are very excited about the opportunities that PLTW and our new Robotics electives will provide for our students.

In closing, we will continue to work diligently to ensure that our graduates are an integral part of the economic development for the region and we thank each and every citizen of Franklin County for your continued support.

FRONTIER SCHOOL REPORT

Mr. Robert Halla, Chair
Frontier Regional School District Committee
South Deerfield, MA 01373

Dear Mr. Halla:

I respectfully submit the 2010 Frontier Regional School Annual Report.

FRONTIER REGIONAL SCHOOL COMMITTEE

TERM EXPIRES

* Robert Halla, Chair, Whately	2011
* Mary Ramon, Vice Chair, Deerfield	2011
William Smith, Secretary, Whately	2012
Robert White, Member, Sunderland	2011
Alexis Toy, Member, Deerfield	2012
* Lynn Cook, Member, Sunderland	2011
Robert Decker, III, Member, Deerfield	2011
Cyndie Ouimette, Member, Conway	2013
* Elaine Rogers, Member, Conway	2011

*Representing the local Elementary School Committees for one-year term.

Regular meetings are held on the second Tuesday of each month, in the Media Center, Frontier Regional School, South Deerfield, Massachusetts at 7:00 p.m.

* Placement on Step 20L occurs when an individual has completed 19 years of service as a Frontier Regional School faculty member.

** Placement on Step 25L occurs when an individual has completed 24 years of service as a Frontier Regional School faculty member.

Frontier Regional School Superintendent Report

I am proud to report that I continue to see a commitment to high standards on the part of students, parents, faculty, and community members. Evidence of this has been apparent in our students, as well as in our students' success on local and state assessments, and in the work that students and teachers accomplish in our school every day.

ENROLLMENT AND SCHOOL CHOICE

The October 1, 2010 enrollment for Frontier Regional School District totaled 687 students. This is a decrease of 13 students from the October 1, 2009 enrollment figures. Of the 687 students, 127 were School Choice, which is an increase of 4 students from the School Choice enrollment of October 2009.

The Frontier Regional School graduated 108 students in the Class of 2010.

STAFF

Newly hired faculty members at Frontier Regional School this year are Matt Howell (ELL), Colin Hosley (Math Teacher) and Joanne Valley (Arts). Two new faculty replaced faculty who have moved to other districts or who

have retired. A part-time ELL instructor was added to allow us to meet the needs of middle school English Language Learners.

NEW ADDITIONS AND AWARDS

There were a number of new happenings at Frontier Regional School District this year.

- The community has reason to celebrate at the completion of the New England Association of Secondary Schools accreditation process. The three year self-evaluation study was viewed positively by the visiting committee and Frontier was awarded its ten year accreditation. The visiting team examines seven areas of the school: Mission and Expectations for Student Learning, Curriculum, Instruction, Assessment of Student Learning, Leadership and Organization, School Resources for Learning and Community Resources for Learning.
- Deerfield Academy donated over \$10,000 worth of previously used Nautilus equipment. The new equipment is located in Frontier's new Wellness Center. The equipment is being used daily in gym classes and team practices. In addition, a couple of evenings a week adult weight training classes are being offered to the public. The space that previously housed the weight equipment was transformed into a movement room.
- The addition of Virtual High School (VHS) classes has expanded the number of opportunities our students have to participate in courses that are not currently offered by Frontier faculty.
- Independent study opportunities have been one way that students can pursue a topic of interest under the guidance of a Frontier faculty member. This year a Capstone presentation was added to the other Independent study requirements. At the end of each semester students who have participated in an independent study course conduct a presentation in front of a review panel.
- A number of new clubs have been added to the list of opportunities for Frontier students. Club choices now include the Green Club and the Ultimate Frisbee Club.

CURRICULUM AND PROFESSIONAL DEVELOPMENT

This year in addition to preparing for the NEASC visit Frontier faculty participated in a number of professional development activities. The faculty had the opportunity to learn about best practices in teaching students with Language Based Learning difficulties. Workshops were presented by Land Mark College and provided information in structuring classes so that all students can be successful.

Faculty were engaged in several discussions related to assessment and the mission of the Frontier Regional School. The Massachusetts Curriculum Frameworks continue to be a central theme in all curriculum discussions. This year teachers in all academic areas were involved in a continuation of a curriculum mapping project.

Frontier teachers are continually engaged in professional development activities to strengthen their skills. Curriculum development, state standards and data driven analysis are central themes and a focus of professional development.

SPECIAL THANKS

I am pleased to acknowledge the dedication and hard work of Frontier Regional School Committee Members: Chair, Robert Halla, Mary Ramon, William Smith, Dr. Robert White, Alexis Toy, Lynn Cook, Robert Decker, III, Cyndie Ouimette and Elaine Rogers. I look forward with pleasure to continuing our work together.

I would like to acknowledge all of the faculty and staff members who work tirelessly to create a highly effective and supportive learning environment in the Frontier Regional School. I appreciate their professionalism, their willingness to meet the needs of individual students, and the care and concern they bring to their classrooms every school day.

I am proud of the efforts of our administration, teaching and support staff, students and central office support and administrative staff as they are accountable to the high standards that are so important to the success of today's schools. I am also extremely grateful for the ongoing support of parents; the communities of Conway, Deerfield, Sunderland and Whately; our school councils, town officials and employees. Without this team effort, we could not obtain the educational excellence for which our schools are known and admired.

Respectfully submitted,

Regina H. Nash, Ed.D.

SUPERINTENDENT'S REPORT WHATELY ELEMENTARY SCHOOL

OPENING STATEMENT

The Whately Elementary School continues to offer an outstanding educational experience for students in preschool through grade six. The educational environment provides opportunities for children to grow in an academically rich setting. Dedicated and experienced faculty helps children to find their way in our ever changing world. The educational opportunities available to students are possible because the people of Whately continue their commitment to fund their school's budget and to support its faculty and programs.

The community has high expectations for the educational experience that are offered to our students. The Whately school community rises to meet those expectations and provide a solid foundation for our future citizens. Whately Elementary School students continue to perform well on both local and state assessments.

ENROLLMENT AND SCHOOL CHOICE

The October 1, 2010 enrollment for Whately Elementary School totaled 138 (PreK-6) students. This is a decrease of 6 students from the October 1, 2009 enrollment figures. Of the 138 students, 50 are School Choice. This is an increase of 4 students from the School Choice enrollment of October 2010.

CURRICULUM AND PROFESSIONAL DEVELOPMENT

In an ongoing effort to make the best use of the technology for our students' benefit, the teachers in the Whately Elementary School continue to expand their technological knowledge and skills and to explore motivating and innovative uses of technology in the classroom.

During the 2009/2010 school year, teachers in the Whately Elementary School were trained in the use of a computer based interactive white board known as the "Smart board". This device makes it possible for students to participate in engaging lessons that are designed on a computer and displayed on a large screen in classroom. These boards are "smart" because the images, words, and numbers on the screen can be moved around, made to change color, grow larger or smaller, or disappear entirely when the screen is simply tapped by a finger. In addition, video clips selected by the teacher from various educational resources on the internet can be easily shown to the entire class. Students are eager to be invited to work with the screen in front of their classmates creating a lively and motivating class periods.

Teachers in Whately Elementary School received training in strategies for addressing bullying behaviors, and a review of the anti-bullying curriculum for grades 3 – 6 called *Steps to Respect*. This curriculum, designed by the nationally based organization Committee for Children teaches students how to recognize bullying behaviors and what to do when bullying occurs. Students are taught strategies for refusing bullying from others, and how not to be a bystander, but to report bullying to responsible adults. All classrooms in the district began implementing this curriculum beginning in September, 2010.

ASSESSMENT

Whately Elementary School teachers worked collaboratively with teachers from the other schools in Union #38 to develop a system of math and literacy assessments that will enable teachers to determine areas in the curriculum needing review, as well as accurately identify specific skills or students that would benefit from support, practice, or enrichment.

In addition to participating in locally developed assessments, students in grades 3 – 6 participate in computer based assessments of reading and math skills that enable teachers to compare each student's skill development to students across the nation. This system, called Measurement of Academic Progress from the Northwest Educational

Assessment System is also being used at Frontier Regional School and is helping our schools track and monitor each student's individual progress as they move up through the grades.

STAFF

As of September 1, 2010, the newly hired faculty member at the Whately Elementary School is Claudia Beldengreen (School Psychologist).

There were no retirees this year.

SPECIAL THANKS

I am pleased to acknowledge the dedication of Whately School Committee members Chair, Nathanael Fortune, Donald Skroski and Robert Halla. This group of individuals works hard on behalf of the Whately community and the many citizens who are part of the educational experience. I look forward to continuing our work together as we strive for excellence.

My sincere thanks to the Whately School Council and PTO. Their efforts at Whately Elementary School enhance the many opportunities available to our students and staff. I want to thank all those town departments that help us keep our students and staff safe. I especially wish to recognize the Police, Fire, and Highway Departments for their dedication and vigilance.

Finally, I would like to extend my appreciation to the citizens of Whately for their support. All members of the community are welcome to visit our school and encouraged to participate in the wide range of school activities and programs that are available to them.

Respectfully submitted,

Regina H. Nash, Ed.D.
Superintendent of Schools

**ANNUAL REPORT FOR FRANKLIN COUNTY
COOPERATIVE BUILDING INSPECTION PROGRAM
FISCAL YEAR 2010**

Dear Member Town:

Thank you for your continued participation in the FCCIP. This letter/report provides a summary of our program's activity in fiscal year 2010.

Fiscal Year 2010 showed a small increase in dwelling units constructed in 2010 (36 as compared with only 31 for 2009). Permit values were up, totaling \$38,719,773, and commercial work remains steady. Total permit fees collected amounted to \$244,692, with commercial work accounting for 25% of the fees. Total number of permits issued increased from 992 to 1073, with a significant number of wood and pellet stove permits, and residential renovation work.

Our newsletter is sent to all member towns and builders. If you wish to have a copy, please contact this office.

James D. Hawkins
Inspector of Buildings

*2-Family and Multi-dwellings are issued only one permit per building.

**These figures reflect only those inspections which receive Certificates, but for various reasons no Certificates are issued.

"Other Fees" reflect re-inspections and duplication of permits and C.O.'s.

**ANNUAL REPORT FOR FRANKLIN COUNTY
COOPERATIVE WIRING INSPECTION PROGRAM
FISCAL YEAR 2010**

Dear Member Town:

I have included the Fiscal Year 2010 report at the bottom of this letter which reflects wiring permits and fee activity for all member towns.

We are seeing more solar installations in our towns. All of these projects need an electrical permit and inspections. Electrical cords are only for temporary use, not for permanently plugging in solar hot water pumps and controls. Also, permits & inspections are required for new or replacement heating systems.

If you have any questions I can be reached during normal office hours on Monday thru Friday, 7AM-9AM at 772-2026, ext 126 or by email at electric@frcog.org. You will find permits, fee schedules, and helpful information on our web site at www.frcog.org, under the Franklin County Cooperative Inspection Program.

Thomas McDonald

Wiring Inspector
07/01/2009 - 06/30/2010
FISCAL YEAR REPORT

**ANNUAL REPORT FOR FRANKLIN COUNTY
COOPERATIVE PLUMBING/GAS INSPECTION PROGRAM
FISCAL YEAR 2010**

Dear Member Town:

I have included the Fiscal Year 2010 report at the bottom of this page which reflects plumbing/gas permits and fee activity for all member towns.

Once again I would like to take this opportunity to remind town residents that the Mass State Plumbing & Gas Code and our inspection program are in place for the health and safety protection of all residents. It is also for the protection of town residents that all plumbing and gas installation/repairs be performed by licensed contractors. Permits shall only be issued to licensed plumbers. You can contact me during office hours on Monday thru Thursday mornings 7a.m.-9a.m. at 772-2026, ext. 125 or email me at plumbing@frcog.org. You will find permits, fee schedules, and helpful information on our web site at www.frcog.org, under Franklin County Cooperative Inspection Program.

Once again, I would like to extend my appreciation to all town officials for your cooperation and assistance during the past year.

**Andrew French
Plumbing & Gas Inspector**

2010 REPORT OF THE FRANKLIN COUNTY SOLID WASTE MANAGEMENT DISTRICT

To the Residents of the Solid Waste District:

The Solid Waste District was formed in 1989 to help Franklin County towns manage all aspects of their solid waste – recyclables, organics, hazardous waste, wastewater treatment sludge, and trash. We continue to provide assistance to the twenty-two member towns through administrative support, professional consultation, trainings, and outreach to residents and businesses. In 2010 we welcomed a new member town, Leverett.

A review of recycling tonnage for 2010 shows a continued decline of 10% from 2009. Historically, when the economy is in a downturn trash disposal and recycling tonnages are lower than normal. District residents still showed their commitment to recycling by diverting 1,900 tons of paper and 1,100 tons of mixed containers from regional disposal facilities. The 3,000 tons of recyclable material was processed at the Springfield Materials Recycling Facility. Recycling market prices rebounded in 2010. District towns received a total of \$116,400 in revenue for their recyclables.

In 2010, the District sponsored a spring and fall “Clean Sweep” collection for bulky items, electronics, tires, appliances, and anything too big to fit into a trash bag. Over 60 tons of material was recycled or disposed of from the two collections. A total of 542 households participated.

We also held our annual household hazardous waste collection in September 2010. This event allows residents to properly dispose of toxic cleaners, automotive products, pesticides, and other toxic products. Over 300 households participated in this event. Almost 50% of participants were using the collection for the first time.

We continue to work with public schools to improve their recycling programs as well as to implement programs to collect food waste for composting. The District also provides hands-on assistance to businesses and institutions that want to recycle or compost their waste. Recycling and composting assistance was provided to 30 public events, including the Franklin County Fair.

If you have questions about District programs, call us at 772-2438, visit our website at www.franklincountywastedistrict.org or visit us at 50 Miles Street in Greenfield.

Jan Ameen - *Executive Director*

Chris Boutwell, Montague - *Chair*

Andrea Donlon, Buckland - *Treasurer*

TO THE RESIDENTS OF THE TOWN OF WHATELY

During Smith Charities' fiscal year, February 1, 2010 – January 31, 2011, the following applicants from Whately were paid as beneficiaries under the Oliver Smith Will:

2 Widows received gifts totaling	\$600.00
3 Tradespersons received a gift of \$600 plus an additional distribution of \$700, totaling	\$3,900.00
1 Nurse received a gift of \$600 plus an additional distribution of \$700, totaling	\$1,300.00

John C. LaSalle, Elector
Under the Oliver Smith Will

Veterans Affairs

Enrollment and Eligibility:

If you are a Veteran not currently enrolled in the VA healthcare, you are invited to contact their main eligibility office and 413-582-3091. Further information can be found at www.va.gov/healtheligibility

Greenfield Based outpatient Clinic, 143 Munson St. 413-773-8428

Many Veterans have been call looking for the VA Web Sites here are a few for you.

Educational Benefits. www.gibill.va.gov

Franklin County Regional Emergency Planning Committee (REPC) 2010 Report to Our Member Communities

Every town in Massachusetts is required under Federal SARA Title III law to have a local emergency planning committee to address procedures to deal with hazardous materials (“hazmat”) emergencies, meet right-to-know requirements, and encourage community awareness. In 2000, under the leadership and administrative support of the Franklin Regional Council of Governments (FRCOG), all 26 Franklin County towns opted into a regional emergency planning committee and elected an “all hazards” approach to emergency planning. This approach addresses planning for hazmat emergencies as well as other natural, technological, and man-made events that call for a similar inter-town, inter-disciplinary response.

Since that time the Committee has come to develop and maintain a regional Hazardous Materials Emergency Plan (HMEP), which is a planning and guidance document that provides resources and recommendations for the development of individual community response plans. In addition, the REPC now has several subcommittees (including a Planning, Industry, and Training Subcommittee), an elected Executive Committee, and conducts quarterly meetings. The Committee provides trainings and exercises to emergency responders and local community leaders throughout Franklin County to meet local and state training requirements. The Committee is now recognized by the State Emergency Response Commission (SERC) as a fully-certified Regional Emergency Planning Committee (REPC).

The Franklin County REPC remains the largest of 23 REPCs in the Commonwealth. During 2010, the Committee continued its mandated activities:

1. Reviewing and updating the HMEP annually
2. Training emergency responders
3. Exercising response plans
4. Creating a system to collect, store, and respond to public requests for information.

Last summer, REPC members and FRCOG staff spent months of hard work making multiple revisions to plans and procedures in order to gain full re-certification from the State Emergency Response Committee. Recertification means that each town, through the REPC, has met the state and federal guidelines under SARA Title III. This certification is good for three years (through January 1, 2014).

Under the Emergency Planning and Community Right to Know Act (EPCRA) facilities using, storing, or manufacturing more than a certain amount of hazardous chemicals on-site at any time during a reporting year, are required to submit reports on their chemical inventories to state and local authorities. With the assistance of FRCOG, the Committee collected and recorded this information from 68 sites in Franklin County. As part of our SERC recertification process, these facilities were mapped. The maps and updated HMEP will soon be distributed to the emergency response coordinator in each town for inclusion in its local Comprehensive Emergency Management Plan (CEMP).

Additionally, the Committee:

- Conducted trainings for local first responders, including a class on Hazardous Materials Awareness (Sunderland) and two Incident Command System 100/700 classes (Heath, Whately).
- Worked with the Pioneer Valley Chapter of the American Red Cross in an effort to establish a prototype regional emergency shelter.
- Sent representation to various subcommittees of the Western Region Homeland Security Council.
- Organized development of county-wide guidelines for support of emergency responder “rehab” and food services.

Your REPC membership currentlyⁱ consists of the following individuals who represent fourteen disciplines:

Fire Service: Walter Tibbetts (Franklin County Fire Chiefs)
Law Enforcement: David Hastings (Franklin County Police Chiefs)
Emergency Medical Services: Bill Travis (Franklin County EMS)
Board of Health: Dave Chichester (Mohawk Area Public Health Coalition)
Hospitals: Joe Zukowski (Franklin Medical Center)
Transportation: Tina Cote (Franklin Regional Transit Authority)
Media: Open
Emergency Management: Robert Strahan (Town of Greenfield)
Public Works: Michael Pattavina (Town of Greenfield DPW)
Community Groups: Dawn Josefski (Franklin County CERT Team)
Environmental: David Slowick (MA Department of Environmental Protection)
Elected Officials: Mark Gilmore (Town of Deerfield)
Industry: James Field (University of Massachusetts)
Education: Michael Baldassarre, (Superintendent's Association)

In addition each of the member communities has designated an Emergency Response Coordinator who is the contact between the REPC and their town:

Ashfield: Del Haskins
Bernardston: Peter Shedd
Buckland: Arthur Henry Phillips
Charlemont: Charles Bellows
Colrain: Scott Sullivan
Conway: Rick Bean
Deerfield: Mark Gilmore
Erving: Luke Hartnett
Gill: Gene Beaubien
Greenfield: Michael Winn
Hawley: Greg Cox
Heath: Tim Lively
Leverett: James Field
Leyden: Gilda Galvis
Monroe: David Nash
Montague: Bob Escott
New Salem: Thomas Reidy
Northfield: Tom Newton
Orange: John Vanbobo
Rowe: Edwin May
Shelburne: Angus Dun III
Shutesbury: Walter Tibbetts
Sunderland: Robert Ahearn
Warwick: Gunnar Lambert
Wendell: Everett Ricketts
Whately: Lynn Sibley

Respectfully submitted,

John Taylor (Shelburne), Chair

Robert Strahan (Greenfield), Vice Chair

Lynn Sibley (Whately), Secretary

Patricia Auchard (Greenfield), Treasurer

Robert Strahan (Greenfield), Chair, Planning Subcommittee

Jim Field (Leverett), Chair, Industry Subcommittee

Michael Winn (Greenfield), Chair, Training Subcommittee

ⁱ As of 1/19/2011.
