**A History, and Sampling of Chocolate—Virtually**

**Friday 2/2/21 @ 6:30pm**

Join Arms Library and Mo's Fudge Factor, both of Shelburne Falls, for an interactive discussion and sampling of the history of chocolate Friday, February 5 at 6:30 p.m.
The history of chocolate dates back to Mesoamerica where it was very different from the confection we know today.
The program will be virtual but will include tasting samples that should be picked up at Mo's or at Arms Library. We will be learning about chocolate's fascinating history as well as trying a wide range of cocoa samples throughout the program.
The program will include some history, some geography and some food science as well as a few recipes to try at home.
There is no charge for the samples, as a library supporter has donated for that. Thanks to Mo for developing and leading the program!
Please call Arms Library at 413-625-0306, for more information and to R.S.V.P., or Mo's Fudge Factor for their hours. Mo's number is 413-625-6645. You may also email armslibrary@gmail.com.
An email with Zoom information will be sent to those who wish to participate.

**Make Needle-Felted Valentine Ornaments—Virtually**

**Saturday 2/6/21 @ 5:30 pm**

Want a warm and fuzzy Valentine, for yourself or for a friend? Make one, or more, out of cookie cutters, ribbon and dry-felting wool. Join the Arms Library in a Virtual program teaching you how to make these very simple, and sweet, tokens of affection.
This craft is easy enough for most ages, but not recommended for kindergarten and under, as we will be using sharp felting needles to poke the wool and create our heart shapes.
Please R.S.V.P. with Arms Library at 413-625-0306 for this so we can send you a Zoom link and, you can pick up your Valentine felting supply bag. Supplies include a variety of wool, felting block, felting needles, cookie cutter and ribbon.

**Ask me anything with Dr. Cady Coleman, Former Astronaut—Virtually**

**Friday 2/12 @ 6:30pm**

Join us for an Ask Me Anything with Dr. Cady Coleman, former NASA Astronaut and retired Air Force Colonel from Shelburne Falls who has logged more than 180 days in space, including two space shuttle missions and a six-month expedition to the International Space Station. Cady
will talk about her adventures in space, show some amazing images and take questions about her experience, the recent SpaceX missions, or... anything!
